

SRINIVAS RAO

Frontend Developer | MERN Stack Developer | Android Developer

Indore, MP, India | +91 9133753252 | kumarsrinivas945@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Software Engineer with professional experience spanning Android application development and modern web technologies. Hands-on experience building responsive web applications using React.js, JavaScript (ES6+), HTML5, CSS3, Node.js, and Express.js, alongside production Android development using Kotlin, MVVM Architecture, and Jetpack components. Proven ability to independently design, develop, and deploy live, multi-page websites end-to-end, from UI design to production hosting. Strong background in REST API integration, application optimization, debugging, state management, and software engineering best practices. Passionate about building scalable, user-centric digital experiences across web and mobile platforms.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design
- **Backend:** Node.js, Express.js, MySQL, REST API Integration
- **Mobile:** Android, Kotlin, XML, MVVM Architecture, Android Studio, Jetpack Libraries
- **Tools & Platforms:** Git, GitHub, VS Code, Android Studio, Postman, Vercel

PROFESSIONAL EXPERIENCE

MERN Stack Intern

Jun 15, 2026 – Present

Inforag Technology

- Developed and optimized responsive user interfaces using React.js and modern JavaScript (ES6+).
- Built reusable, modular components following component-based architecture best practices.
- Integrated REST APIs and backend services using Node.js and Express.js.
- Implemented third-party service integrations, including EmailJS, to extend application functionality.
- Participated in debugging, testing, and performance optimization to improve application reliability.

Android Developer

Nov 2022 – Dec 2024

Blubirch, Bengaluru

Project: Grading Tool

- Designed and developed an Android application for product grading and review workflows.
- Implemented multimedia attachments including image and video uploads.
- Developed barcode and QR scanning functionality for efficient product evaluation.
- Integrated APIs to streamline reporting and grading operations.
- Utilized Kotlin, CameraX, Room Database, and MVVM Architecture.
- Improved application performance through debugging and code optimization.

Project: Croma-RIMS

- Maintained and enhanced enterprise Android applications using Kotlin.
- Redesigned UI based on Material Design guidelines.
- Integrated backend services using REST APIs.
- Collaborated with QA teams to improve product quality.
- Resolved production bugs and application crashes using Android Studio tools.

PROJECTS

Infotive Solutions — Live Company Website - <https://www.infotivesolutions.com/>

Tech Stack: HTML5, CSS3, JavaScript, Responsive Web Design, Vercel

- Independently designed and developed a live, multi-page responsive website (infotivesolutions.com) for a product design and development agency, deployed on Vercel.
- Built 10+ structured pages covering services, industries, case studies, insights, and legal policies with consistent navigation and layout.
- Implemented key modules including an animated hero section with embedded video, a portfolio/case-studies grid, testimonials, awards showcase, and a lead-capture contact form with budget selection.
- Used semantic HTML and optimized assets (SVG icons, compressed video/image media) to ensure fast load times and cross-device responsiveness.
- Managed the complete project lifecycle independently — from UI design and development to deployment and hosting configuration.

Infotive Solutions — Portfolio Website - <https://portfolio.infotivesolutions.com/>

Tech Stack: HTML5, CSS3, JavaScript, Responsive Web Design, Vercel

- Independently designed and developed a dedicated portfolio/showcase website highlighting the agency's services, case studies, and client work.
- Built dynamic sections for service offerings, featured case studies, client testimonials, and a project portfolio grid with hover interactions.
- Implemented embedded video hero sections and optimized media assets for fast load times across devices.
- Deployed and hosted independently on Vercel, ensuring consistent uptime and performance.

Interactive 3D Portfolio - <https://srinivas-my-portfolio.vercel.app/>

Tech Stack: React.js, JavaScript, CSS, GitHub API

- Built a modern portfolio website featuring advanced animations, custom cursor interactions, and dynamic GitHub repository integration.

Apna Dukan — E-Commerce Application - <https://apna-dukan.vercel.app/>

Tech Stack: HTML, CSS, JavaScript, Tailwind CSS

- Developed an e-commerce frontend with product filtering, category management, and a UPI-based checkout workflow.

Currency Exchanger - <https://currency-converter-a81w.vercel.app/>

Tech Stack: JavaScript, REST API

- Created a real-time currency conversion application with live exchange rates and dynamic data rendering.

React Practice Projects

Tech Stack: React.js

- Built 5–10 React-based applications focused on routing, API integration, reusable components, and responsive UI design.

EDUCATION & CERTIFICATION

B.Tech – Computer Science Engineering (2018 – 2022)

Bharath Institute of Higher Education and Research

Full Stack Developer Certification — Pentagon Space

MERN Stack Training — Code Of School, Indore

LANGUAGES & STRENGTHS

Languages: English | Hindi | Telugu | Bengali

Strengths: Problem Solving | Team Collaboration | Clean Code Practices | Continuous Learning | Communication Skills
