PROFESSIONAL SUMMARY

Results-driven Software Engineer transitioning into Frontend and MERN Stack Development with professional experience in Android application development and modern web technologies. Hands-on experience building responsive web applications using React.js, JavaScript, HTML, CSS, Node.js and Express.js. Strong background in API integration, application optimization, debugging, state management, responsive UI development and software engineering best practices. Previously worked as an Android Developer delivering production applications using Kotlin, MVVM Architecture, Android Jetpack components and REST APIs. Passionate about creating scalable, user-centric digital experiences and continuously learning modern frontend technologies.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design
Backend:	Node.js, Express.js, REST API Integration
Mobile Development:	Android, Kotlin, XML, MVVM Architecture, Android Studio, Jetpack Libraries
Tools:	Git, GitHub, VS Code, Postman
Concepts:	Component-Based Architecture, State Management, Object-Oriented Programming, Agile Development

PROFESSIONAL EXPERIENCE

MERN Stack Intern

Code Of School, Indore | Feb 2026 - Present

- Developed and optimized responsive user interfaces using React.js and modern JavaScript.
- Built reusable components and followed modular application architecture.
- Integrated REST APIs and backend services using Node.js.
- Worked on EmailJS and third-party service integrations.
- Participated in debugging, testing and performance optimization activities.

Android Developer

Blubirch, Bengaluru | Nov 2022 - Dec 2024

Project: Grading Tool

- Designed and developed Android application for product grading and review workflows.
- Implemented multimedia attachments including image and video uploads.
- Developed barcode and QR scanning functionality for efficient product evaluation.

- Integrated APIs to streamline reporting and grading operations.
- Utilized Kotlin, CameraX, Room Database and MVVM Architecture.
- Improved performance through debugging and code optimization.

Project: Croma-RIMS

- Maintained and enhanced enterprise Android applications using Kotlin.
- Redesigned UI based on Material Design guidelines.
- Integrated backend services using REST APIs.
- Collaborated with QA teams to improve product quality.
- Resolved production bugs and application crashes using Android Studio tools.

PROJECTS

Interactive 3D Portfolio Platform | [Live Demo](#) | [GitHub](#)

Tech Stack: React.js, JavaScript, CSS, GitHub API

- Built a modern portfolio website featuring advanced animations, custom cursor interactions and dynamic GitHub repository integration.

Apna Dukan - E-Commerce Application | [Live Demo](#) | [GitHub](#)

Tech Stack: HTML, CSS, JavaScript

- Developed an e-commerce frontend with product filtering, category management and UPI-based checkout workflow.

Currency Exchanger | [Live Demo](#) | [GitHub](#)

Tech Stack: JavaScript, REST API

- Created a real-time currency conversion application with live exchange rates and dynamic data rendering.

React Practice Projects | [GitHub Repo](#)

Tech Stack: React.js

- Built 5-10 React-based applications focused on routing, API integration, reusable components and responsive UI design.

EDUCATION

B.Tech - Computer Science Engineering

Bharath Institute of Higher Education and Research | 2018 - 2022

CERTIFICATION

Full Stack Developer Certification - Pentagon Space

LANGUAGES

English | Hindi | Telugu | Bengali

STRENGTHS

Problem Solving | Team Collaboration | Clean Code Practices | Continuous Learning | Communication Skills
